

CIVICA

LAEMS

Is your Authority ready for LAEMS?

This year, the Food Standards Agency introduced their new Local Authority food and feedingstuffs information is collected and the method of collection.

Local Authorities will need to ensure that the enforcement information they record in 2008/9 complies with the revised requirements from the FSA, and that their staff understand what these requirements are.

Civica Public Protection is pleased to be able to offer customers a unique Consultancy package to ensure that your Authority is ready to meet this new challenge. One of our experienced Local Government Professionals will meet with your System Administrator and Food/ Feedingstuffs managers and:

- Advise on the detailed data requirements of LAEMS, including changes from the previous Monitoring Return
- Audit your existing data recording methods and procedures for compliance with the LAEMS model
- Recommend changes and improvements where necessary
- Along with your staff, carry out any changes/additions to your Authority system configuration to enable your staff to properly record the data

- Advise on 'housekeeping' tasks to ensure data is consistently recorded by staff
- Advise on the process for exporting data to LAEMS
- Report on the changes made and the methods for recording future data.

All of this is available for only £950 per day. Based on existing experience, we would estimate that one day is needed for Food Hygiene and Standards and one day for Feedingstuffs enforcement.

If you feel that your Authority would benefit from our expertise, please contact our Sales team on 01225 485006 or contact your Civica consultant for details.

About Civica

Civica is a market leader in software and services that help organisations to improve service delivery and efficiency, with specialist expertise in local government, social housing, enforcement and education.
